## OBJECTIVE

Aspiring software developer with hands-on experience in XML scripting and debugging. Proactive team player, open to new technologies, committed to enhancing functionality and reliability in software products.

## EDUCATION

**Bachelor of Computer Science and Engineering**, Rajalakshmi Institute of Technology                2024
Anna University Affiliated, Autonomous
CGPA - 7.9

## SKILLS

**Front-End Web Development, Designing**
**HTML, CSS, XML, MySQL, JavaScript, Python, JSP, React**
**Basics in Testing (Using Selenium IDE)**
**Product/Project Management**

## TOOLS

**VS - Code**
**Trello**
**Figma**
**Flutter**
**Github**
**Slack**
**Selenium IDE**

## EXPERIENCE

**Web Developer - Intern**                April 2022 - August 2023
Melospiza                *Remote*

- Designed a website with respect to user's experience to satisfy the user.
- Developed a website according to user's requirement to satisfy their expectation.
- Grouping with the teams to deliver successful projects and get the output on time.

**Technology Analyst - Intern**                January 2024 - November 2024
Fiserv                *Onsite*

- Developed and Maintained XML Scripts: Created and optimized XML scripts for "Aggregate-Now," a product managing multiple bank account details on a unified dashboard. Improved script efficiency and reduced errors through meticulous debugging and optimization.
- Failure Handling and Debugging: Debugged and fixed failure handling scripts, ensuring robust performance and minimizing downtime for end-users.
- Feature Integration: Assisted in integrating new features and functionalities based on user feedback, enhancing the overall user experience.
- Tools and Technologies: Utilized AOT (All Data Operations Tool) for product analysis, Bugzilla for internal bug tracking, and Client 360 for client communication and issue resolution.

- Documentation: Documented code changes and updates, facilitating better understanding and maintenance for future development efforts.

## PROJECTS

**Tours and Travel Business Page**

Techstacks

- HTML, Tailwind CSS, Formspark.

Objective

- Built a landing webpage for the tours and travels company which displays the information about the company and the package they are offering to the public with a query box which is developed using html,css,formspark etc.

**Personnal Portfolio**

Techstacks

- HTML, Tailwind CSS, JavaScript, ReactJS.

Objective

- Build a personnal portfolio which gives the demonstrates my skills, experiences, and accomplishments which was developed using react.js, jsx, javascript, css,etc.

**Implementing AI based models to detect COVID-19 in chest X-Rays using Machine Learning**

Techstacks

- HTML, Tailwind CSS, Python, Machine Learning, Deep Learning, YOLO-V8 Algorithm.

Objective

- Developed an model which detects the COVID-19 from the X-RAYS of human through the help of machine learning and deep learning which reduces the time of detecting the COVID-19 IN humans.
